

TJIM Business Continuity Plan Summary

Tom Johnson Investment Management, LLC

Tom Johnson Investment Management LLC has developed a Business Continuity / Disaster Recovery Plan on how we will respond to events that significantly disrupt our business. Since the timing and impact of disasters and disruptions is unpredictable, we will have to be flexible in responding to actual events as they occur. With that in mind, we are providing you with this information on our business continuity plan.

Contacting Us – If after a significant business disruption you cannot contact us as you usually do at 405-236-2111, please see our website www.tjim.com for updated contact information or send an email to us at marketing@tjim.com.

Our Business Continuity Plan - We plan to quickly recover and resume business operations after a significant business disruption and respond by safeguarding our employees and property, making a financial and operational assessment, protecting the firm's books and records, and allowing our customers to transact business. In short, our business continuity plan is designed to permit our firm to resume operations as quickly as possible, given the scope and severity of the significant business disruption.

Our business continuity plan addresses - data backup and recovery; all mission critical systems; financial and operational assessments; alternative communications with customers, employees, and regulators; alternate physical location of employees; critical supplier, contractor, bank and counter-party impact; regulatory reporting; and assuring our customers that access to their funds and securities at their respective custodians is independent of our operations.

Varying Disruptions - Significant business disruptions can vary in their scope, such as only our firm, a single building or unit housing our firm, the business district where our firm is located, the city where we are located, or the whole region. Within each of these areas, the severity of the disruption can also vary from minimal to severe. In a disruption to only our firm or the building housing our firm, we will transfer our operations to a local site when needed and expect to recover and resume business within 24 hours. In a disruption affecting our business district, city or region, we will transfer our operations to a site outside of the affected area, and recover and resume business as soon as possible. In either situation, we plan to continue in business and notify you through our website of our customer emergency number, and how to contact us. If the significant business disruption is so severe that it prevents us from remaining in business, we will assure our customer's prompt access to their funds and securities.

TJIM has contracted with a managed network services company who handles our backup management, performs restores and would facilitate any recovery we could require.

Tom Johnson Investment Management's Business Continuity Plan is subject to change and is modified and tested at least annually for updates and revisions.
